

Green House

The Department of Agriculture of Jagannath University, Jaipur is the pioneer and a fore runner among private teaching institutions imparting agricultural education in the state of Rajasthan. The department has all the required facilities of Greenhouse, Vermicompost unit for organic agriculture, drip and sprinkler irrigation system. It has units of medicinal and aromatic plants.

Poly house at main campus has been constructed with Iron structure and covered with polythene sheet, followed by another covering with white and green net. Total area of poly house is around 1000 sq.m.(28Mx36M). In this seedling of vegetables like Tomato, Brinjal, Chilly, capsicum, cabbage, cauliflower, knolkhol, turnip, broccoli, beetroot, onion and ornamental plants are being raised. These seedlings are being grown in poly house using drip system and Open-flood system.

The poly-house is a version of protected agriculture which is especially suitable for horticultural species. The important aspect is the involvement of students from the very first step of erection to final harvest of the produce. In this way students are exposed to this innovative technology, which is an important part of experiential learning and integral component of RAWE and READY programs.
