

Department of Engineering & Technology

Circular

Date: 18th March 18

This is to inform that Department of Engineering & Technology is going to organize a **Seminar on "Gradually Varied Flow"** on 24th March 2018 at Seminar Hall, A- Block Chaksu Campus at 02:00PM.

All faculty members of the department are requested to encourage all students to attend the event without fail. The Brochure is enclosed for your reference.

About the Speaker

Dr. Kedar Sharma

Dr. Kedar Sharma is the Associate Professor at J K Lakshmipat University, Jaipur since August 2017. He worked as a Faculty at J K Lakshmipat University, Jaipur for many years. He has been the Head Of Department at BBDGEI for 2 years in 2011-2012. He holds a Bachelor's Degree in Civil Engineering from Engineering college Kota, a Master degree in Hydraulics and Water Resources from Indian Institute of Technology, Kanpur and a Ph.D. degree in Civil Engg. from Indian Institute of Technology, Kanpur. He has presented many research papers in different conferences and organized various workshops. He has organized many International conferences and also various national conferences.

A Seminar Report on
“Gradually Varied Flow”

(24th March 2018)

Department of Civil Engineering organized a one day seminar on Gradually Varied Flow for students held on 24th March 2018.

Workshop Timing: 11 AM to 2 PM

Purpose of the workshop

Purpose of the workshop is to enhance the knowledge of students about various types of flow specifically gradually varied flow (GVF).

Participants of the workshop

42 participants have attended the workshop out of 44 registrations and get benefitted in terms of knowledge on the said topic.

Key note Speaker: Dr. Kedar Sharma, Associate Professor, JK Lakshmipat University

Workshop Contents

Seminar on Gradually Varied Flow

The uniform flow is one in which the flow depth remains constant with distance. Such flows occur only in long and prismatic channels (i.e., the channel cross section and bottom slope do not change with distance). In real-life projects, however, channel cross sections and bottom slopes are not constant with distance in natural channels and these are varied in constructed channels to suit the existing topographical conditions for economic reasons.

The following topics were covered in the workshop:

- Gradually varied flow

Attendance Sheet

SrNo.	Name	Affiliation	Signature
			24/03/2018
1	Amit Kumar Shrivastava	Research Scholar jagannath University Jaipur	
2	Amit Saini	Career Point University, Kota	
3	Amupama Munshi	Jagannath International Management School, Kalkaji	
4	Anil Kewat	Jagannath University, Jaipur, INDIA	
5	Anil Kumar Talwadia	Jagannath University, Jaipur	
6	Aniruddh Sanga	GD Goenka University	
7	Aniruddha Paul	Kalyani Government Engineering College	
8	Aritra Paul	Kalyani Government Engineering College	
9	Ashik Hussain	Career Point University, Kota	
10	Ashirwad Samuel	GD Goenka University	
11	Ashish Vyas	Jagannath University, Jaipur	
12	Ashwani Kumar Swami	Jagannath University, Jaipur	
13	Dharamdas Kumhar	Bundelkhand University, Jhansi, INDIA	
14	Dr. C. N. Sakhale	Priyadarshini College of Engineering	
15	Dr. Ratnaraj Mukiri	St. Ann's College of Engineering & Technology, Chirala
