After the inauguration a street play performed by a group of students on the theme of "Women Health, Safety and Security". 2020 is set to be a year of milestones for women, gender equity, and health. In the same manner our actions are needed against social, cultural, economic, and geographical factors that often prevent women with early disease presenting to care. Furthermore, investment in cancer services for women should be accompanied by policies that promote gender equality and risk protection against the costs of care.

In the series of celebration of Women's Day a Guest Lecture was delivered by Prof. Lalita Watta (in charge of Women Cell, University of Rajasthan) on 6th March, 2020 in Seminar Hall at 11:30 AM.
