# M A Architects

"A multi-disciplinary architectural design studio"

---

- E. **M A Architects**, the second party, is a leading service provider of architecture design services.
- F. The First Party will admit the student to **B. Architecture Program**, this is a five years course which makes a student a qualified Architect. The Course structure will be as approved by the Academic Council of the University time to time. The Examination and evaluation shall be held as per the University Regulations.
- G. This MoU will be effective from the academic year 2016-2017.

**NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERE TO AGREE AS FOLLOWS:**

## CLAUSE 1 CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the University and its related wings. The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing suitable teaching / training systems, keeping in mind the needs of the industry, the Second Party.
- 1.3 The general terms of co-operation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.

"A multi-disciplinary architectural design studio"

---

- 2.7 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programmes on the terms specified herein.
- 2.8 The Financial arrangements will be made between the Parties as is mutually agreed.

## CLAUSE 3 INTELLECTUAL PROPERTY

- 3.1 Nothing contained in this MOU shall, by express grant, implication, Estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copy rights and designs) of the other Party.

## CLAUSE 4 VALIDITY

- 4.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms. Both Parties may terminate this MOU upon 30 calendar days' notice in writing. In the event of Termination, both parties have to discharge their obligations.

## CLAUSE 5 RELATIONSHIP BETWEEN THE PARTIES

- 5.1 It is expressly agreed that First Party and Second Party are acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name in any way, to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

**ACTIVITY REPORT**

Name of the Activity	Lecture on Paradigms of Design	
Type of Activity	Guest lecture/Seminar	
Date and Time of Activity	August 03, 2016	10:00 – 12:00 pm
Details of Participants	48 students	
Resource Person(s)	<b>Ar. Sharad Maithel</b> He is the founder of M A Architects firm in 1993. He Completed his B Arch from Sir JJ College of Architecture, Mumbai.	
Organizing Dept./ Support System	Faculty of Architecture & Planning, Jagannath University, Jaipur	
In collaboration with	<b>M A Architects</b>	
Description	<p>As sociological paradigms, a design paradigm is the constellation of beliefs, rules, knowledge, etc. that is valid for a particular design community. Here a paradigm is not a particular solution, but rather the underlying system of ideas that causes a range of solutions to be 'normal' or obvious.</p> <p>While the first meaning of "design paradigm" refers to exemplary design solutions that create "design trends", the second meaning refers to what a group of people expects from a type of design solutions.</p> <p>The aim of this lecture was to make students understand how to use their creative skills, which was very well explained by Ar. Sharad Maithel.</p>

<b>Name of the Activity</b>	<b>Workshop on Model Making</b>	
<b>Type of Activity</b>	Workshop	
<b>Date and Time of Activity</b>	September 24, 2016	09:00 – 12:00 pm
<b>Details of Participants</b>	50 students	
<b>Resource Person(s)</b>	<p><b>Mr. Kailash Solanki</b> An architecture graduate from Jadavpur University (J.U) with a specialization in Industrial Design from Domus Academy, Milan.</p>	
<b>Organizing Dept./ Support System</b>	Faculty of Architecture & Planning, Jagannath University, Jaipur	
<b>In collaboration with</b>	<b>M A Architects</b>	
<b>Description</b>	<p><b>Model building</b> is a hobby that involves the creation of physical models either from kits or from materials and components acquired by the builder. The kits contain several pieces that need to be assembled in order to make a final model. Most model-building categories have a range of common scales that make them manageable for the average person both to complete and display. A model is generally considered physical representations of an object and maintains accurate relationships between all of its aspects.</p>

Name of the Activity	Workshop on Different Types of Presentation Techniques	
Type of Activity	Workshop	
Date and Time of Activity	November 12, 2016	01:00 - 04:00 pm
Details of Participants	30 students	
Resource Person(s)	<p><b>Mr. Balvinder Singh</b> In a career spanning about two decades, he has completed many projects, some of which were public institutions : schools, libraries, art centers, and low-cost housing</p>	
Organizing Dept./ Support System	Faculty of Architecture & Planning, Jagannath University, Jaipur	
In collaboration with	M A Architects	
Description	<p>Interactive rendering is an essential facet of building design and architecture. The term rendering defines the automatic process of <b>generating digital images from three-dimensional models, by means of a special software</b>. These images simulate project or 3D model's photorealistic environments, materials, lights and objects.</p> <p><b>Rendering Real Time</b> Real-time rendering is mainly <b>used in gaming and interactive graphics</b>, where images are calculated from 3D information at a very fast pace. As a result, dedicated graphics hardware have improved the performance of real-time rendering ensuring rapid image processing.</p> <p><b>Rendering offline</b> Offline rendering is a technique mainly used in <b>situations where the need for processing speed is lower</b>. Visual effects work where photorealism needs to be at highest standard possible. There is no unpredictability, unlike real time.</p>

Name of the Activity	Site visit to explain excavation and foundation stage of a building	
Type of Activity	Case Study / Site Visit	
Date and Time of Activity	February 25, 2017	10:00 – 02:00 pm
Details of Participants	35 students	
Resource Person(s)	<b>Mr. Manoj Jangid</b> Mr Manoj Jangid holds a bachelor degree in architecture from Nagpur university in year 2001. He has over 18 years of architectural experience.	
Organizing Dept./ Support System	Faculty of Architecture & Planning, Jagannath University, Jaipur	
In collaboration with	M A Architects	
Description	This is the first step towards the construction of a building. A site visit helped them to understand the site excavation and foundation in a better way. They learnt the following steps: <ol style="list-style-type: none"> <li>1. Site Clearing. Before an excavation site can be developed, the ground needs to be cleared and leveled. ...</li> <li>2. Site Surveying. A surveyor will make sure that the project is in the right location.</li> <li>3. Soil Testing. ...</li> <li>4. Site Plan Design. ...</li> <li>5. Geotechnical Site Investigation</li> </ol>

**ACTIVITY REPORT**

<b>Name of the Activity</b>	<b>Lecture on Sustainable Buildings and Building Materials</b>	
<b>Type of Activity</b>	Guest Lecture / Seminar	
<b>Date and Time of Activity</b>	April 22, 2017	02:00 – 04:00 pm
<b>Details of Participants</b>	45 students	
<b>Resource Person(s)</b>	<p><b>Mr. Atul Mathur</b> Graduated from Sushant School of Art and Architecture, N. Delhi. In 1997. He has worked relentlessly in the developments involved in, from Commercial, condominium housing to resort developments and urban planning.</p>	
<b>Organizing Dept./ Support System</b>	Faculty of Architecture & Planning, Jagannath University, Jaipur	
<b>In collaboration with</b>	<b>M A Architects</b>	
<b>Description</b>	<p>Sustainable architecture is the use of design strategies that reduce the negative environmental impact from a building environment. A sustainable building is an outcome of design philosophy which focuses on increasing efficiency of resource use- energy, water and materials- while reducing building impacts on human health and environment during the building's life cycle.</p>
