

Dear Student,

We are pleased to inform you all that our University is now registered for **Coursera for Campus** program. As per this registration, Coursera has offered us 20000 licenses using which the faculty and students can pursue any number of courses for free from a pool of 3800+ courses.

Coursera is a world-wide online learning platform founded in 2012 by Stanford professors "Andrew Ng" and "Daphne Koller" that offers massive open online courses (MOOC), specializations, and degrees. It works with universities and other organizations to offer online courses, specializations, and degrees in a variety of subjects, such as engineering, data science, machine learning, mathematics, business, computer science, digital marketing, humanities, medicine, biology, social sciences, and others.

On Coursera, more than 35 million people are achieving their goals with online courses and degrees from the world's best universities. Every learning program on Coursera is flexible and 100% online. Make progress at your own pace with video lectures, readings, quizzes, and more.

It is a great facility wherein you can add value to your skills, sitting at home. You can avail this facility by registering on Coursera **using only your pre registered mail id** with the University :

<https://www.coursera.org/programs/jagan-nath-university-jaipur-on-coursera-6jas9>

The courses which are being shown in catalog tab are those which are free (All such courses have a tag line "Sponsored by Jagan Nath University Jaipur" at the top in the Course Description.)

Students may contact Mr. Sudhansu Mathur (sudhansu.mathur@jagannathuniversity.org) to get an invite from the University.
